Everyone Loves Sweet Peas

Then why not have them from early summer until late in autumn?
The various shades attained from a dozen or more plants will greatly please and satisfy anyone.

Perennial, Hardy, Climbing Sweet Peas

will give you the same large, beautiful blossoms as the annual or tender varieties, eliminating the annual expense and trouble of replanting each year, and becoming eventually a bower of loveliness to be admired for years to come. The foliage is a very desirable feature. Where it is not too exposed to the sun, will remain a lovely green long after the snow falls. For covering fences or screens it is all that can be desired; being almost an evergreen, it scarcely has an equal. Use them extensively anywhere even on rough ground or in the rockery. They are perfectly hardy and require no special care whatever. They will grow in a great variety of soils and in very adverse situations. Assorted colors only but the shades are wonderfully beautiful.

FLOWERS for EVERYBODY

4 Bargain Combinations which will appeal to all flower lovers

FLOWERS have been one of the luxuries of the human race from the time they were driven out of the Garden of Eden, and enjoyed by everyone; but there is another primitive instinct that comes from the beginning, the pleasure in having made a good bargain, and to some it is a bit more satisfactory to combine the two. To those who will appreciate the price rather than care for the named varieties we have made up collections that will give gorgeous returns in beauty at a less price than the regular listings, not inferior in quality, but our choice of varieties rather than yours. All delivery charges prepaid in U. S. A.
